Experience

Northwoods Software, Nashua, NH

2010 onwards

I build [GoJS](#), a JavaScript and TypeScript library for interactive diagrams in HTML Canvas/SVG. Plus every duty required for small company success, from marketing to shopping cart infrastructure.

GoJS involves API design, documentation, developer-to-developer support, even more documentation, etc. Authoring a library has led me to submit some browser bugs: [35 to Chromium](#), [17 to Firefox](#). Mostly canvas/SVG rendering or devtools issues, with one minor security bug in Chrome.

StackOverflow

Active until 2013, still [top 0.32% overall](#). By 2013 I had answered over 10% of all HTML Canvas questions ever asked on SO. I enjoy helping people.

Publications

[The Map is Mostly Water](#)

Newsletter: Philosophy, tales, and anecdotes. Thousands of subscribers.

HTML5 Unleashed

June 27, 2013

ISBN-13: 075-2063336274, ISBN-10: 0672336278

<http://www.amazon.com/dp/0672336278>

“Still relevant in 2018, best book on canvas I have read.” —Most recent Amazon review

432 pages of tutorials on HTML5 (mostly Canvas), printed in full color.

Education

Rensselaer Polytechnic Institute

Bachelor's, Computer Science & Philosophy, Graduated 2010

Dual major, graduated in 7 semesters, averaging 19 credits per semester.

Dean's List. VP, Independent Counsel. CS rep, Curriculum Committee.
